

InnoINvest — Data Categories & Sources

Reverse-engineered from the **Florești / FinDreams 2025** investor brief (Copy of INNO, Florești, 01 AUGUST (1).pdf, 29 pages).

Each section lists: (1) the data points investors actually want, and (2) the open / authoritative sources where they can be pulled — international first, then Romania-specific.

1. Strategic Location & Logistics

Pages 2, 6, 8 — “Overnight delivery to”, distances to ports/customs/airports/highways.

Data points: distances to major cities & EU capitals, drive-time isochrones, distance to highways / airports / sea ports / border customs, road class, rail connectivity.

Sources: - OpenStreetMap (OSM) + Overpass API — road network, rail, POIs - OpenRouteService / GraphHopper / Mapbox / Google Maps Distance Matrix API — drive-time matrices, isochrones - Eurostat Transport (tran_*) — TEN-T corridors, port/airport throughput - CNAIR (cnair.ro) — Romanian national roads & highways inventory - CFR (cfr.ro / cfrcalatori.ro) — rail network, stations, schedules - Aviația Civilă Română (caa.ro) — airports & runways - ENTSO-E + Copernicus (for road conditions / EO)

2. Macro-Economic Indicators

Pages 2, 4, 18 — GDP/capita, EU absorption, FOB exports, gross monthly income, active businesses, tourists, fastest-growing county ranking.

Data points: regional GDP & GDP/capita (NUTS3), GVA by sector, exports/imports (FOB/CIF), EU funds absorption, inflation, registered businesses, business density, tourism arrivals/overnights.

Sources: - Eurostat — nama_10r_3gdp (regional GDP NUTS3), tour_occ_*, htec_* - World Bank Open Data (api.worldbank.org) - OECD Regional Database / OECD.Stat - INS / Tempo Online (insse.ro) — Romanian regional statistics - BNR (bnro.ro) — exports, FDI, balance of payments - ONRC (onrc.ro) — Trade Registry, business creation - listafirme.ro / termene.ro — company registry mirrors (more usable API) - MFP — EU funds absorption (mfe.gov.ro)

3. Quality of Life, Safety & Liveability

Page 3 — Numbeo safety index, EC Quality of Life in European Cities, “10th most liveable”.

Data points: crime/safety index, liveability ranking, resident satisfaction, air & noise pollution, healthcare quality perception.

Sources: - Numbeo (numbeo.com) — crime, cost of living, quality of life indices - European Commission — *Quality of Life in European Cities* survey (DG REGIO) - Eurostat Urban Audit (urb_*) - Mercer Quality of Living rankings - IQAir / OpenAQ — air quality - Copernicus Atmosphere Monitoring Service (CAMS)

4. Demographics

Pages 4, 19, 20 — population, age distribution by year, catchment within 50 km.

Data points: total population & trend, age pyramid, working-age (15–64), education attainment, migration flows, catchment population by drive-time radius.

Sources: - INS Tempo Online (statistici.insse.ro) — Romanian census + yearly updates - Eurostat demo_* and cens_* — NUTS3 demographics, census - World Bank Population & Development - GHS-POP (JRC Global Human Settlement Layer) — gridded population, perfect for drive-time catchments - WorldPop (worldpop.org) - Local primării (e.g., primariafloresti.ro) — registered population

5. Land, Real Estate & Construction

Page 6 — 200 HA, ownership mix, lease €/m²/year, build cost €400–1000/m², reno €350–550/m².

Data points: parcel size & boundaries, public vs. private ownership, zoning (PUG), concession/lease prices, land/construction/renovation cost benchmarks, available industrial/logistics inventory.

Sources: - ANCPPI / eTerra (ancpi.ro) — national cadastre & land registry - INSPIRE Geoportal (inspire-geoportal.ec.europa.eu) — EU cadastral & spatial - Local PUG/PUZ from primării — urban zoning plans - Imobiliare.ro, Stora.ro, OLX, Anunturi-Imobiliare — listings price scrape - CBRE / Colliers / Cushman & Wakefield — annual industrial market reports - INS construction cost indices (IC ind.) - Geoportal ANCPPI (geoportal.ancpi.ro) — WMS layers

6. Transportation Infrastructure (Existing & Planned)

Pages 8, 9 — A3 highway, airports, customs, planned beltway TR35 (€1.2 B), photovoltaic park, retail parks.

Data points: highway/road network, rail, airports, ports, public transit, planned megaprojects with budgets & timelines.

Sources: - CNAIR (cnair.ro) — national road projects pipeline - Ministerul Transporturilor (mt.ro) - CFR Infrastructură (cfr.ro) - ADR Nord-Vest (nord-vest.ro) — regional development programs - EU CEF / TEN-T project database (ec.europa.eu/inea) - SEAP / e-licitatie.ro — public procurement → infrastructure tenders - OpenStreetMap (planned/proposed tags)

7. Utilities (Electricity, Gas, Water, Sewage)

Pages 10–14 — substations & distances, €/kWh, €/Nm³ gas, water river capacity, sewage capacity.

Data points: grid capacity, distance to nearest substation, voltage levels, industrial electricity & gas tariffs, water/sewer access points & capacity, renewable energy share, CO₂ intensity.

Sources: - ANRE (anre.ro) — energy tariffs, grid operators - Transelectrica (transelectrica.ro) — high-voltage grid map & substations - Distribuție Energie Electrică Romania (DEER) — regional MV/LV grid - Delgaz Grid / Distrigaz Sud — gas network - Apele Române (rowater.ro) — water resources, river capacity - ANAR (anar.ro) — water management plans - ENTSO-E Transparency Platform — EU electricity prices & flows - Eurostat Energy (nrg_*) - Copernicus CAMS — CO₂ / pollutant footprint - OpenInfraMap (openinframap.org) — crowdsourced grid map

8. Health Infrastructure

Page 15 — €762 M Cluj Regional Emergency Hospital, completion 2028.

Data points: hospital beds per capita, planned health projects, doctors per 1k, medical specializations.

Sources: - Ministerul Sănătății (ms.ro) - CNAS (cnas.ro) — health insurance + hospital network - INS health statistics - Eurostat Health (hlth_*) - WHO Europe Health for All database - DSP județene — county-level public health directorates

9. Labor Market & Human Resources

Pages 17–21 — employment rate, unemployment, gross/net salary by role, sectoral breakdown, catchment workforce, full cost breakdown by role.

Data points: working-age population, employment & unemployment rate, salary by occupation/sector/experience, sectoral employment shares, labor cost composition (gross → contributions → net), minimum wage, dual-education pipeline.

Sources: - INS Tempo Online — employment, wages, sector - ANOFM (anofm.ro) — unemployment, vacancies - Eurostat LFS (lfs_*), Earnings (earn_*) - ILOSTAT (ilostat.ilo.org) - Ministerul Muncii (mmuncii.ro) - ANAF (anaf.ro) — official tax rates & contribution schedules - Salary surveys: PayScale, Glassdoor, salaryexplorer.com, payanalytics.ro - LinkedIn Talent Insights (paid) / public LinkedIn member counts by city - OECD Employment Database

10. Education & Talent Pipeline

Pages 22–23 — vocational schools, dual programs, graduates/year, university programs, available seats per faculty.

Data points: schools & universities (count, programs, capacity), graduates per year by field, dual-education partnerships, R&D output.

Sources: - Ministerul Educației (edu.ro) — institutional registry, capacity - ARACIS (aracis.ro) — accredited programs - UEFISCDI (uefiscdi.ro) — university data, R&D - Individual university sites (UTCN, UBB, USAMV, UMF Cluj) - ETER (European Tertiary Education Register) - Eurostat Education (educ_*) - OpenAlex — academic publications & researchers per institution - ORCID, OpenAIRE — researcher/output graphs

11. Existing Business Ecosystem

Page 24 — De’Longhi, Endava, Emerson, Bosch with employee counts and sectors.

Data points: major employers, employee counts, sector, foreign vs domestic capital, startup & R&D ecosystem, clusters.

Sources: - ONRC (onrc.ro) — official trade registry - listafirme.ro, termene.ro, risco.ro — usable mirrors with financials - Crunchbase — startup/funding data - Dealroom.co — European startup ecosystem - PitchBook (paid) - LinkedIn Company pages — employee counts - CORDIS (cordis.europa.eu) — EU R&D project beneficiaries - PatentsView, EPO Espacenet, WIPO PATENTSCOPE — patent activity - Romanian Industry Clusters (clustero.eu)

12. Innovation, Research & Startup Ecosystem

Implied by challenge brief; supports the “innovation district” narrative.

Data points: R&D spend (% GDP), researchers per 1k workers, patents per capita, EU R&I project participation, startups & funding, scientific publications.

Sources: - Global Innovation Index (WIPO) - European Innovation Scoreboard (DG R&I) - Regional Innovation Scoreboard (NUTS2) - CORDIS (EU framework programs: H2020, Horizon Europe) - OpenAlex — publications, citations, author affiliations - PatentsView, EPO PATSTAT, Espacenet - Crunchbase, Dealroom, Tracxn — startups & VC - GitHub developer concentration (commits geo-tagged via GHTorrent)

13. Environment, Sustainability & Climate Risk

Implicit (photovoltaic park, CO₂ forecast on p. 10) and central to the challenge brief.

Data points: air quality (PM2.5, NO₂), water stress, flood/drought risk, land cover, renewable potential (solar/wind), CO₂ intensity, protected areas.

Sources: - Copernicus (CAMS air, CLMS land, CEMS emergency, C3S climate, Sentinel imagery) - European Environment Agency (eea.europa.eu) - ANPM (anpm.ro) — Romanian environmental agency - Global Solar Atlas, Global Wind Atlas (ESMAP / DTU) - ENTSO-E for grid mix - World Resources Institute — Aqueduct (water risk) - Climate-ADAPT (EU adaptation portal)

14. Tax, Incentives & State Aid

Pages 25–29 — corporate tax, VAT, local exemptions, hiring subsidies, state-aid schemes table (GD 300/2024, ConstructPlus, GD 959/2022, InvestAlim, etc.), CEE tax comparison.

Data points: corporate income tax, VAT, local tax rates, hiring subsidies (€/month per category), active state-aid schemes (budget, intensity, eligibility), cross-country comparison.

Sources: - Ministerul Finanțelor (mfinante.gov.ro) — Fiscal Code, GD (Hotărâri de Guvern) - ANAF (anaf.ro) - Consiliul Concurenței (consiliulconcurentei.ro) — state-aid registry - European Commission — State Aid Scoreboard (TAM database) - InvestRomania (investromania.gov.ro) —

investor incentives portal - PwC / KPMG / Deloitte / EY annual tax summaries (PDF scrape)
 - OECD Tax Database (tax-policy / corporate-tax-stats) - IBFD Tax Research Platform (paid) -
 Monitorul Oficial (monitoruloficial.ro) – laws & GDs full-text

15. Mobility & Connectivity (Digital Infrastructure)

Implicit – “IT hub”, but not detailed in this PDF. Common investor ask.

Data points: broadband coverage & speed, 5G coverage, fixed/mobile penetration, fiber availability, data center proximity.

Sources: - ANCOM (ancom.ro / netograf.ro) – Romanian telecom regulator - nPerf, Ookla Speedtest open data - European Commission DESI (Digital Economy and Society Index) - OpenSignal / Cloudflare Radar - DataCenterMap.com / Cushman & Wakefield data center reports

Quick-Start Coverage Matrix

Category	Primary Open Source	Romania-Specific	Coverage
1. Location	OpenStreetMap + ORS	CNAIR, CFR	★★★★★
2. Economy	Eurostat, World Bank	INS, BNR, ONRC	★★★★★
3. Quality of Life	EC Urban Audit	—	★★★★
4. Demographics	Eurostat, GHS-POP	INS	★★★★★
5. Land/Real Estate	INSPIRE	ANCPI, Imobiliare.ro	★★★
6. Transport	OSM, TEN-T	CNAIR, SEAP	★★★★
7. Utilities	ENTSO-E	ANRE, Transelectrica	★★★
8. Health	Eurostat, WHO	MS, CNAS	★★★★
9. Labor	Eurostat LFS	INS, ANOFM	★★★★★
10. Education	OpenAlex, Eurostat	edu.ro, ARACIS	★★★★
11. Business Ecosystem	Crunchbase, CORDIS	ONRC, listafirme	★★★★
12. Innovation	EIS, CORDIS, OpenAlex	UEFISCDI	★★★★
13. Environment	Copernicus, EEA	ANPM	★★★★★
14. Tax/Incentives	EC State Aid	MFP, ANAF, InvestRomania	★★★★
15. Digital Infra	DESI	ANCOM	★★★
